TURKISH

WORK EXPERIENCE

Freelance
Fullstack Developer
2021 – Present

Negahban Hooshmand

Hirad Restaurant

Exibition Application

Sam Banyo

Mena VPN

- Architected and executed end-to-end web application projects for clients spanning various industries, implementing best practices and innovative solutions, resulting in enhanced user experiences and a 30% increase in customer retention
- Led dynamic cross-functional teams, fostering effective communication and coordination, resulting in the on-time delivery of 15+ high-quality products, achieving a 40% reduction in time-to-market and exceeding revenue goals by 15%
- Collaborated with cross-functional teams in design discussions and provided critical feedback, resulting in the implementation of user-centric features and a 20% increase in customer satisfaction
- Developed and maintained RESTful APIs, microservices, and serverless applications using Node.js
- Developed comprehensive data models and schemas for SQL and NoSQL databases, leveraging indexing and partitioning techniques; enhanced data retrieval speed by 50% and reduced storage costs by 25%
- Architected and executed the implementation of CI/CD pipelines, containerization, and cloud deployment using Docker, Kubernetes, AWS, and GCP; achieved 95% uptime and reduced infrastructure provisioning time by 60%
- Wrote automated tests, including unit tests, integration tests, and end-to-end tests, to ensure code quality and reliability

Tiva Soft Co
Senior Android Developer
2021 – 2022

- Develop, design, and maintain high-quality mobile applications for Android platforms
- Collaborate with cross-functional teams, including UX/UI designers, product managers, and QA engineers, to deliver high-quality products
- Engaged in meticulous code reviews, facilitated design exchanges, and actively contributed to technical meetings, ensuring code quality and project alignment, while fostering effective collaboration and streamlined development processes
- Implement new features, fix bugs, and optimize mobile applications performance using the latest Android and mobile development best practices
- Mentor junior developers and provide technical guidance and support to the team

Silver Path Co
Android Developer
2019 – 2021

▶ **AUTO PARK**

▶ **DIDO**

- Implemented innovative features and functionality in Android applications for clients in healthcare and transportation domains, resulting in a 30% reduction in app crashes and a 20% improvement in overall user satisfaction
- Partnered directly with clients to identify opportunities for mobile app optimization, resulting in a 50% decrease in load time, a 20% increase in app ratings, and a 15% rise in active users
- Analyzed historical data to accurately estimate project scope, duration, and resource allocation, leading to a 30% improvement in project cost accuracy and a 25% reduction in budget overruns.
- Fostered a collaborative and inclusive environment, promoting effective teamwork and knowledge sharing among designers and QA engineers, leading to the achievement of superior outcomes and a 30% increase in project efficiency
- Conducted code reviews, wrote unit tests, and provided technical support to the team

Parham Kish Holding
Android Developer
2018 – 2019

- Developed and executed strategic roadmap, resulting in a 40% increase in monthly active users and a 25% boost in conversion rate
- Championed cross-functional collaboration to achieve project objectives, resulting in a 30% reduction in production costs, a 25% increase in customer retention, and a 20% improvement in overall team efficiency

Yas e Sepid Pars
Android Developer
2017 – 2018

- Developed and maintained Exir App, a restaurant and coffee review app similar to Foursquare
- Implemented a collaborative approach, fostering synergy among cross-functional teams and delivering a 15% improvement in product quality, resulting in a 10% increase in customer retention
